

Product information / Technical datasheet

Micro-Stone – **The Stone Fabric**

Real stone overlay (Slate and quartzite) with backside cotton fabric

Product name: Micro-Stone

Micro stone is real stone texture, Grain, Colour and appearance in an incredibly thin veneer with reinforced cotton fabric for complete strength and flexibility of the sheet.

SIZES: Standard size is 1220 x 610mm and maximum 2800 x 1250mm (special sizes are also available on request)

THICKNESS:

0.7-1.00mm (depending upon the stone)

WEIGHT:

900-1100 grams per square meter (depending upon the stone)

APPLICATION:

Micro Stone offers an even wider range of opportunities in use because of its extreme flexibility and uniqueness. The material can be used with a simple wood glue and can be applied on various possibilities: Walls, Ceilings, Interiors, Furniture, Ceilings, Cabinets, doors etc.

**TOOLS :**

Standard available tools can be used for application. Microstone is so friendly material that you can also cut with a carpet knife or sharp scissors.

SEALING :

We recommend sheets to be single layer treated to avoid stains and penetration of foreign object. Recommended sealers can be bought from Moeller Stone care or Lithofin.

STORAGE:

Microstone should be stored flat in a clean environment

Possible hazards:

No possible hazards known

**First aid measures:**

	(under normal condition)
inhalation:	no specific measure to be taken
skin contact:	no specific measure to be taken
eyes contact:	no specific measure to be taken
ingestion:	no specific measure to be taken

**Measures in case of fire:**

Suitable extinguishing media: dry extinguishing media, foam, CO₂, water spray risk by gas: in case of fire carbon monoxide and carbon dioxide can be produced special protecting equipment: no special measurements necessary

Measures in case of accidental spillage

Not applicable-

Exposition restriction and personal protecting equipment

No specific measures – while processing the material we recommend wearing safety glasses

Chemical and physical properties

appearance:	solid (color of the product as supplied)
pH:	not applicable
boiling point:	not applicable
melting point:	not applicable
decomposition temperature:	> 300°C
flash point:	not applicable
flammability :	not easy flammable
Explosive properties:	not applicable
Oxidizing properties:	not applicable
Vapor pressure:	not applicable
Relative Density:	not applicable
Solubility in water:	insoluble

Toxicological information

No toxic reaction known under normal conditions.

Ecological information

For transportation, storage, normal use, no toxicological effect known

Disposal considerations

Product can be deposited with normal waste or be burned according to local, official instructions.

Transport information

Micro Stone is packed into boxes and then into export worthy wooden pallet and can be transported both by air and sea
